About Organiser

Established as a non-profit Industry body in 1980, the India ITME Society serves as catalyst for Technological Excellence and today is the backbone of Textile Engineering Industry in India

Today, the Society has become the cornerstone of the Textile & Textile Technology Industry, accelerating technological innovations & collectively shaping the Textile Industry to positively impact the future.

INDIA ITME SOCIETY
Empowering Textiles
through Trade and Technology

Over the years, India ITME Society metamorphosed from a domestic organizer into a global brand, embracing internationalism. The Society has left no stone unturned in establishing itself as one of India's most successful Exhibition Organizers with its principles based on Trust, Consistency & Collaboration. The India ITME Society is also connected with many Educational and Government Institutions as well as 1500 Associations in India and across the Globe.

Today's competitive global scenario demands regular interaction, networking, global visibility, outreach to customers and tapping new opportunities at the right time & place. The motive behind this Business & Technology Event is to connect Textile & Textile Engineering businesses to various destinations across Africa & Middle East.

ITME Africa & M.E. 2023 is a catalyst striving to transform the textile industry of Africa & Middle East, in the coming decades, by opening up unlimited opportunities for business, sourcing, collaboration and investment the Textile, Textile Engineering, Ancillary & Allied Industry.

With the prime motive of bringing modern and up-to-date Textile Technology to Africa and M.E & thus empowering textile industry of the continent and collaborate through trade & technologies.

India ITME Society welcomes you to the 2nd Series of the strategic International business event ITME Africa & M.E. 2023.

ITME
AFRICA & M.E.

Prosperity through
Textile Technology and Engineering

Vision for ITME Africa & M.E.

To initiate a new era towards self reliance, socio-economic advancement & empowerment in the Textile & Textile Engineering Sector with International co-operation for Africa & Middle East.

Mission for ITME Africa & M.E.

To serve as a gateway and One Stop Solution for Textile Technology & Engineering encompassing Education, Skill Development, Investment Joint Ventures & Sourcing.

MESSAGE

I am glad to learn that India International Textile Machinery Exhibitions Society (India ITME Society) is organizing an international event showcasing Indian Textile Engineering Companies at ITME Africa & Middle East 2023 from 30th November to 2nd December, 2023 at Nairobi, Kenya.

India has the potential to become a sourcing hub for textile technology and textile engineering. This event can serve as a gateway to all of Africa. It is an excellent opportunity for Indian Textile and Textile engineering industry to project itself as an alternate and friendly sourcing /investment partner with focus on "Make in India".

My best wishes to the Indian and International exhibitors from several countries participating in the event.

I congratulate and compliment the organizers and exhibitors and wish them a very successful business event.

Goodwill Message

भारत की उच्चायुक्त, नैरोबी
High Commissioner of India, Nairobi

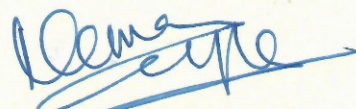

21 April 2023

MESSAGE

I am pleased to learn that India International Textile Machinery Exhibitions Society (India ITME Society) has chosen to hold the ITME Africa & Middle East 2023 exhibition in Nairobi from 30th November 2023 to 2nd December 2023.

This will be an excellent opportunity to showcase the products of India's textile engineering companies and explore the strong potential for bilateral cooperation with Kenya. India and Kenya enjoy enduring economic engagement that covers various sectors of which textile technology and machinery is a promising component. Kenya holds potential to be a gateway to rest of the East African region and as such, provides ample opportunity for Indian companies to expand their business in this part of the world.

On behalf of the High Commission, I extend felicitations to ITME society and participating Indian businesses and exhibitors. The High Commission is happy to extend support and facilitation to ITME and the participating companies in exploring fruitful partnerships in Kenya.

TEXTILE TECHNOLOGY

Chapter 1	Machinery of Spinning Preparatory, Man-made Fibre & Natural Fiber Spinning Machinery, Winding, Texturing, Twisting and Related Auxiliary Machinery and Accessories
Chapter 2	Machinery for Web Formation, Bonding and Finishing of Nonwovens and Felting, Machinery Related to Technical Textiles
Chapter 3	Weaving Preparatory Machinery, Weaving, Tufting Machinery and Auxiliary Machinery
Chapter 4	Knitting and Hosiery Machinery and Auxiliary Machinery
Chapter 5	Embroidery Machinery, Braiding Machinery and Auxiliary Machinery
Chapter 6	Washing, Bleaching, Dyeing, Drying, Finishing Machinery, and Related Auxiliary Machinery
Chapter 7	Printing & Digital Printing Machinery, and Related Auxiliary Machinery
Chapter 8	Garment Making Machinery and Related Auxiliary Machinery
Chapter 9	Making-up Industry Machinery and Related Auxiliary Machinery
Chapter 10	Ginning Machinery and Related Auxiliary Machinery

ENGINEERING

Chapter 11	Equipment For Recycling, Waste Reduction and Pollution Prevention, Accessories
Chapter 12	Pumps & Valve
Chapter 13	Electrical Equipment & Tools
Chapter 14	Spare Parts, Components and Accessories of all Category Machines
Chapter 15	Other Utility Machinery & Equipment
Chapter 16	Cotton Seed and Cotton Farming Technology & Equipment
Chapter 17	Machinery Related to Engineering Products

TEXTILE PRODUCTS

Chapter 18	Fibers & Yarns - Natural, Blended, Synthetic, Technical & Recycled (Cotton, Jute, Wool, Silk, Mohir & Others)
Chapter 19	Fabric - Natural, Blended, Synthetic & Technical
Chapter 20	Readymade Garments / Apparels
Chapter 21	Made - Ups & Carpet (Home Handloom & Powerloom Traditional Products)
Chapter 22	Technical Textiles Products
Chapter 23	Dyestuffs and Chemical Products for the Textile Industry
Chapter 24	Home Textiles Products

ALLIED SERVICES

Chapter 25	Industrial Zones
Chapter 26	Laboratory Testing and Measuring Equipment
Chapter 27	Logistic Transportation, Material Handling, Storage and Packing Equipment
Chapter 28	Management and Finance Related Services (Banking, Consultancy, Trading, Dealers)
Chapter 29	Software for Design, Data Monitoring and Processing (CAD / CAM / CIM) and Integrated Production
Chapter 30	ERP Package & Web Base Solution Textile Industry
Chapter 31	Associated Goods and Services for the Textile Industry
Chapter 32	Technical Information Services, Educational, Research Institutes & COE's

Venue

KENYATTA INTERNATIONAL CONVENTION CENTRE Harambee Avenue Nairobi, Kenya

The Kenyatta International Convention Centre is the leading convention facility in East Africa. KICC boasts of being the leading facility in the meetings industry in East Africa. Located at the heart of the central business district of Kenya's Capital, KICC boasts of its proximity and easy accessibility to and from all major five-star hotels, most of which are ten minutes' walk away and five minutes away by car. The center is PAD friendly with ramps that go throughout the center making it accessible to all our guests.

Airport to Venue

BY AIR.

Kenya has four international airports which include; Jomo Kenyatta International Airport in Nairobi, Moi International Airport in Mombasa and Moi International Airport in Eldoret, Kisumu International Airport.

These airports services numerous international carriers including the national airline Kenya Airways. British Airways, Ethiopian airways, Kenya has good connections to destinations throughout Europe, the Asia- Pacific region, USA and Africa

TAXI & HAILING APPS

You can find most international taxi services in Kenya including Uber, Bolt and others.

RENTAL SERVICES

Most worldwide rental agencies have offices in Nairobi and Mombasa, and these offer expensive but reliable cars with a full back-up network.

BY ROAD

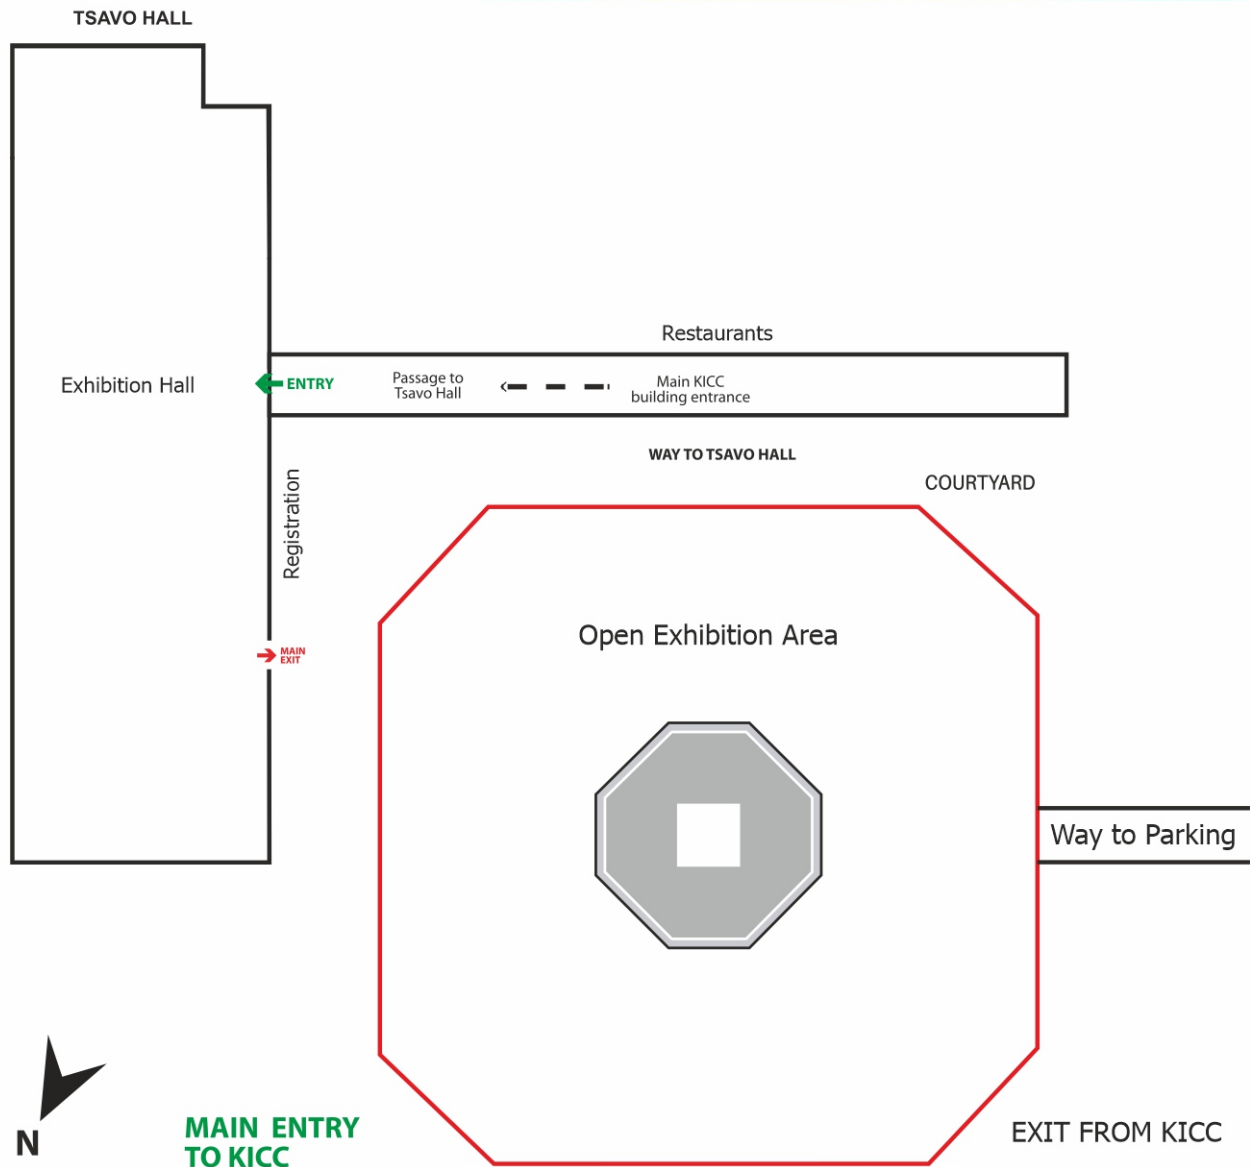

Kenya can be accessed by road from Tanzania, Uganda, Ethiopia, Sudan and Somalia. Migration ought to be handled at land outskirts stations. For specific conferences and events on request KICC can organize transport for delegates.

Destination

Official Name: Republic of Kenya

Capital City: Nairobi is the capital and the largest city of Kenya. The name comes from the Maasai phrase Enkare Nyrobi, which translates to "cool water", a reference to the Nairobi River which flows through the city.

Location : Kenya is a country in East Africa with coastline on the Indian Ocean.

Language: Kenya is a multilingual country. Swahili, a Bantu language, and English are widely spoken as lingua francas and serve as the two official languages.

Leading Textile Exports: Kenya as of now is the largest exporter of apparel under AGOA with about Ksh. 35billion worth of exports in 2017. With the changes in the global apparels sourcing supply chain in the world, Kenya has been able to attract a substantial number of world buyers and these figures can grow with enhancement and competitiveness.

Leading Imports: Kenya imports mostly Machinery and Transportation equipment, Petroleum products, Motor vehicles, Iron and Steel, Resins and Plastics.

Weather: The temperatures in Nairobi in December are comfortable with low of 57°F and and high up to 75°F. You can expect about 3 to 8 days of rain in Nairobi during the month of December.

Currency: Kenyan Shilling

Exchange Rate: 1 KES = 0.6503 INR, 0.00787 USD, 0.00742 EUROS (as on 28th Feb 2023)

Country Code: +254

Time Zone: GMT +3

Airports: Jomo Kenyatta International Airport | Wilson Airport | JKIA Terminal 2

Seaports: [By road] Port of Mombasa - 8 hr 7 min (487.4 km)
Kilindini Harbour is the main part of the Port of Mombasa, the only international seaport in Kenya and the biggest port in East Africa. It is managed by the Kenya Ports Authority (KPA). Apart from cargo handling, Mombasa is frequented by cruise ships.

Neighbouring Countries: Sudan (306 km), Ethiopia (779 km), Somalia (682 km), Tanzania (769 km) and Uganda (772 km)

Major International Offices:

- Food and Agriculture Organization
- International Labour Organization
- International Monetary Fund
- United Nations Centre for Regional Development, Africa Office
- UN Women

Why KENYA?

Opportunities in Textile & Textile Engineering Industry in Kenya & Africa

Kenya has a domestic market of over 50 million people and is a leading economy in sub-Saharan Africa. The top reasons companies should consider doing business in Kenya are

- 1) It is a market-based economy
- 2) Kenya is the economic, commercial, financial, and logistics hub of East Africa
- 3) It has a young, growing and educated english-speaking population with a high fluency in technology

Kenya has built strong bilateral and multilateral trade relationships. Kenya is a member of the East African Community (EAC), Common Market for Eastern and Southern Africa (COMESA), and the Africa Continental Free Trade Area (AfCFTA). In July 2022, Kenya announced the STIP, which identifies ten areas for the development of high standard commitments. The objectives of STIP include increasing investment; promoting sustainable and inclusive economic growth; benefiting workers, consumers, and businesses (including micro, small, and medium-sized enterprises); and supporting African regional economic integration.

(Source : <https://www.trade.gov/knowledge-product/kenya-market-overview>)

Kenya : Preferred Destination

Kenya imports most of its Textile Engineering and Technology requirements, its imports were highest in FY2018, recording purchases worth US\$41.88 Mn, where Spinning Machinery was alone accountable for 28% of purchases, followed by Weaving and Processing Machinery. Whereas in 2021, the imports of US\$18.53 Mn showed more inclination towards import of garmenting, 35% share and processing machinery having a share of 31%. Spinning Machinery, one of the promising sector, accounted for 5% share.

In FY2021, the majority of the machines, around 44%, were imported from China. India was the second highest exporter of Textile Machinery, with a share of 29%, showing the strong presence of the Indian Textile Engineering sector in the Kenyan market.

In FY2021-22 Kenya reported exports worth US\$ 433.7 Mn of articles of Textiles & Apparel. The Textiles & Apparel export in FY2021 has grown by 5%, as compared to FY2017, however its imports in FY2021 have also increased by 10%. It has an abundance of presence in vegetable fibers, especially in Coconut, Abaca (Manila hemp or Musa textiles Nee), and Ramie. It exported fiber worth US\$ 55.2 Mn in FY 2021 of which more than 90% of the share was from vegetable fibers.

Political Stability: The recently concluded general elections have set the stage for Kenya's next development chapter. The country has made significant political and economic reforms that have contributed to sustained economic growth, social development, and political stability gains over the past decade.
