Sophos anticipates AI-based attack techniques and prepares detections

NEWS IN PICTURES:

Major players in the textile and apparel industry drawn India, Middle East and Africa have converged in Nairobi, Kenya, this week for the ITME Africa & Middle East 2023 summit and expo. The event, running from November 30 to December 2, 2023, has been organized by the India ITME Society, a non-profit industry body formed in 1980 to serve as a catalyst for technological excellence and currently recognized as the backbone of textile engineering industry in India.

Being held at the Kenyatta International Convention Centre (KICC) in Nairobi, ITME Africa & Middle East 2023 targets the textile technology and engineering sector players. The event seeks to connect the global business leaders with their counterparts from to Kenya and Africa.
